Big question	<ul style="list-style-type: none"> How can I use technology to show my learning? Why do we ask questions? 	<ul style="list-style-type: none"> How can I use technology to help tell a story? 	<ul style="list-style-type: none"> How can I present data in different ways? 	<ul style="list-style-type: none"> How can I collect data? 	<ul style="list-style-type: none"> How does or can technology help us in the real World? 	<ul style="list-style-type: none"> How does technology help answer real World questions? 	<ul style="list-style-type: none"> What is big data?
Skills:	<ul style="list-style-type: none"> I can move objects on a screen. I can create shapes and text on a screen. I can use technology to show my learning I can tell you about different kinds of information such as pictures, video, text and sound. 	<ul style="list-style-type: none"> I can be creative with different technology tools. I can use technology to create and present my ideas. I can use the keyboard or a word bank on my device to enter text. I can save information in a special place and retrieve it again. To talk about the different way in which information can be shown 	<ul style="list-style-type: none"> I can use technology to organise and present my ideas in different ways. I can use the keyboard on my device to add, delete and space text for others to read. I can tell you about an online tool that will help me to share my ideas with other people. I can save and open files on the device I use. 	<ul style="list-style-type: none"> I can create different effects with different technology tools. I can combine a mixture of text, graphics and sound to share my ideas and learning. I can use appropriate keyboard commands to amend text on my device, including making use of a spellchecker. 	<ul style="list-style-type: none"> I can use photos, video and sound to create an atmosphere when presenting to different audiences. I can show confidence to explore new media to extend what I can achieve. I can change the appearance of text to increase its effectiveness. 	<ul style="list-style-type: none"> I can use text, photo, sound and video editing tools to refine my work. I can use the skills already developed to create content using unfamiliar software or apps. I can select, use and combine appropriate technology tools to create effects that will have an impact on others. 	<ul style="list-style-type: none"> I can talk about audience, atmosphere and structure when planning a particular outcome. I can confidently identify the potential of unfamiliar technology to increase creativity. I can combine a range of media recognising the contribution of each to achieve a particular outcome. I can explain why I select a particular digital tool relative to a specific purpose.

Computing Long Term Plan

		<ul style="list-style-type: none"> I can use technology to collect information, including photos, video and sound. I can sort different kinds of information and present it to others. I can add information to a pictograph and talk to you about what I have found out. 	<ul style="list-style-type: none"> I talk about the different ways I use technology to collect information, including a camera, microscope or sound recorder. I can make and save a chart or graph using the data I collect. I can talk about the data that is shown in my chart or graph. I am starting to understand a branching database. I can tell you what kind of information I could use to help me investigate a question. 	<ul style="list-style-type: none"> I can evaluate my work and improve its effectiveness. I can use an appropriate tool to share my work online. I can talk about the different ways data can be organised. I can search a ready-made database to answer questions. I can collect data help me answer a question. I can add to a database. I can make a branching database. I can use a data logger to monitor changes and can talk about the information collected. 	<ul style="list-style-type: none"> I can create, modify and present documents for a particular purpose. I can use a keyboard confidently and make use of a spellchecker to write and review my work. I can use an appropriate tool to share my work and collaborate online. I can give constructive feedback to my friends to help them improve their work and refine my own work. I can use different software and a range of hardware to complete a task. 	<ul style="list-style-type: none"> I can select an appropriate online or offline tool to create and share ideas. I can review and improve my own work and support others to improve their work. I can select appropriate software to use for a given task. I can confidently use a range of software tools (ECDL Standard). I can control external hardware from within the software I am using. I can use a spreadsheet and database to collect and record data. I can choose an appropriate tool 	<ul style="list-style-type: none"> I can be digitally discerning when evaluating the effectiveness of my own work and the work of others. I can plan the process needed to investigate the World around me. I can select the most effective tool to collect data for my investigation. I can check the data collected for accuracy and plausibility. I can interpret the data I collect. I can present the data collected in an appropriate and meaningful way. I can use the skills developed to interrogate a database. I can use software to help analyse and present data and information.
--	--	--	--	---	--	---	--

Computing Long Term Plan

					<ul style="list-style-type: none"> I can organise data in different ways. I can collect data and identify where it could be inaccurate. I can plan, create and search a database to answer questions. I can choose the best way to present data to my peers. I can use a data logging type of device to share information. I can describe how search engines work and other search results. 	<p>to help me collect data.</p> <ul style="list-style-type: none"> I can present data in an appropriate way. I can search a database using different operators to refine my search. I can talk about mistakes in data and suggest how they can be checked. 	
Suggested outcomes:	<ul style="list-style-type: none"> Move objects on a screen. Create shapes. Identify different kinds of information. 	<ul style="list-style-type: none"> Match their developing physical skills to tasks and activities in the setting. 	<ul style="list-style-type: none"> Creating and bringing character to life. Stopping a moving animation. 	<ul style="list-style-type: none"> Plan, film and edit a trailer. Understand what is a transition and how to include. Make comparison cards. 	<ul style="list-style-type: none"> Create web content. Model of weather station. Build working weather station. 	<ul style="list-style-type: none"> Animation videos.
