

Weekly Update

Autumn 1

Issue 02

Friday 12 September 2025

Dear Willow Brook Families,

It has been another inspiring week at Willow Brook, filled with collaboration, creativity, and exciting news to share.

This week, our assemblies and classroom reflections have centred on our school value of **Collaboration**. We have seen pupils working together brilliantly, from problem-solving in maths, to co-creating artwork, to supporting one another in the playground. Collaboration is about recognising that we achieve more together, and it has been wonderful to see this value lived out so strongly.

Looking ahead, a reminder that our **Curriculum Evenings** will take place next week. These evenings are an important opportunity for us to share with you the learning journeys your children will be embarking on this year, and to strengthen the partnership between school and families. We very much look forward to welcoming you.

We are also delighted to highlight developments in **Computing and Computer Science** across the Griffin Schools Trust East London Hub. Mr Allen, who has been working with Year 10 & 11 students at Lammas, will now extend his expertise to their new Year 7 cohort. His work has been invaluable in raising aspiration and excellence in this subject area.

At Willow Brook, we are incredibly proud that the high standard of our pupils' work means that some of our **Year 6 pupils are being considered to sit a GCSE in Computing this year**. This is a remarkable achievement, testament not only to the dedication and skills of our pupils, but also to our school's commitment to delivering a rich, high-quality STEM education.

Finally, a note that **Lammas School will be hosting their Open Evening on Monday 29th September**. This is always a great chance for families of older pupils to find out more about the opportunities awaiting them as part of our Trust.

Thank you, as always, for your continued support.

Warm regards,

Lucie Dawn
Head of School
